Advance Oxidation

PHOTO CAT

- PHOTOCATALYTIC OXIDATION / REDUCTION PROCESS
- TRIPLE BARRIER : FILTRATION, PURIFICATION, DISINFECTION
- CHEMICAL FREE

Utilizes a UV light activated titanium oxide slurry catalyst. It's a low energy, ambient temperature and pressure process with a self-cleaning membrane to recover the slurry. Essentially the only Input is power and water.

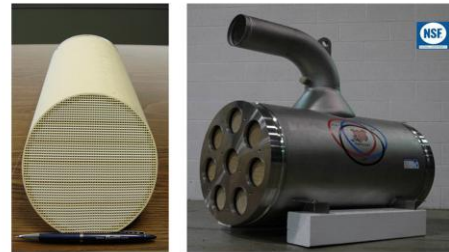

Continuos Flow Ceramic Membrane System

CF-CMS

- MONOLITIC CERAMIC MEMBRANE
- NSF LISTED, 25 YEARS LIFE DESIGN
- CHEMICAL FREE, MF/UF/NANOFILTRATION,4X FLUX

Large TOC / NTU reduction (1,000 to 1.0), remove Giardia, Cryptosporidium and ocysts highly resistant to extreme operating conditions (temperature, pressure, cleaning chemicals...if needed), higher flux on industry,

Ceramic Membrane & Housing

Chemical free cooling water treatment

WATER ENERGIZERS

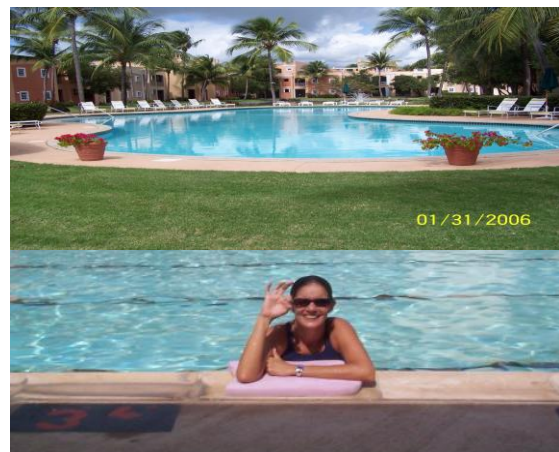

- CHEMICAL FREE C. TOWER / BOILER WATER TREATMENT
- 75 % COST REDUCTION
- SELF SUSTAINING WATER TREATMENT
- WATER CAN BE REUSED

Chlorine generators for pools

AIS

- SWIMMING POOL CHLORINE GENERATOR
- 80 % COST REDUCTION (minimum)
- COST REDUCTION STRATEGIES

NEXT SAND

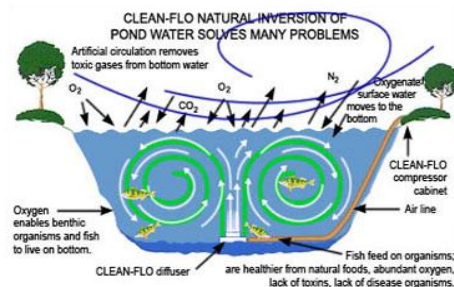

- DRINKING AND WASTE WATER PLANTS
- 25% INCREASE OUTPUT
- SWIMMING POOLS
- AQUARIUMS

Lakes, rivers, ponds restoration

CLEAN FLO

Exclusively focused on products, which improve water quality. Have been designing natural systems to improve water quality in ponds, lakes, rivers, reservoirs and wastewater lagoons, since 1970. Installed thousands of systems around the world to reduce aquatic weeds, eliminate algae, foul taste and odor, fish kills, improve fish health, reduce organic sediment (muck) and reduce bacteria.

Remote monitoring and control

SOLAR POWERED SYSTEMS

- DRINKING & WWTP'S, C.TOWERS, PUMP STATIONS ,LAKES, ESTUARIES
- MULTIPARAMETER SONDES
- AUTONOMOUS UNDERWATER VEHICLES (AUV)
- BUOYS

Onsite chlorine generator

MICROCLOR

- ONSITE CHLORINE GENERATOR
- 20 TO 3,000 PPPD
- NSF listed
